Experience

FitSW – Front End Developer

February 2021 – Present

- Lead efforts to build brand new front-end infrastructure using React Js and Redux.
- Proficiently translated design specs into responsive and scalable React UI components.

Projects

Crypto Tracker (ReactJS, ES6, JSX, CSS3, SASS, Axios)

- Created a cryptocurrency tracker around crypto market's API
- Utilized Axios in order to perform get requests
- Implemented react-router-dom and react hooks such as useRef, useState, and UseEffect to navigate between different web pages

Tesla Clone (ReactJS, ES6, JSX, CSS3, SASS)

- Rebuilt tesla website entirely from scratch using React, React Router, and React Hooks
- Made use of reusable components using props
- Hosted website using AWS Amplify
